Dear valued customer

To show our appreciation for your business and referrals we have adopted a voucher program that we hope will benefit not only you but also the individual in which we would like to serve. The voucher itself explains how it works and will be honored by Stallings Sheet Metal for each system sold on a one time basis. Keep in mind that we do offer discounts to people who install multiple pieces of equipment in a single building project. For example, if a customer purchases three units, a stove, a furnace, an air conditioning, the referral would be 3 times.

We have enclosed some vouchers to get you started.

Good Luck!
